

Kennel/Cage Container Requirements for Pets on Loganair flights

Between 17th Dec 2022 and 3rd Jan 2023 All Flights are embargoed for carriage of PETS. This embargo is for all flights except the BN2 Inter-Isles Operation at Orkney which will continue to offer the service.

Pet/s must be booked before travel to ensure that two animals from different families do not end up on the same flight.

Failure to book may result in us refusing travel for your pet on the day.

The correct size of a container is essential. It must protect the animal during transport, be secure and have sufficient ventilation. If you do not meet the following requirements:

- Loganair **can only** carry PETS (Cats & Dogs) in the hold
- Loganair **DO NOT** carry animals as cargo (AVIH)
- Loganair **DO NOT** carry other animals – only cats and dogs accompanied by the owner
- Loganair **can only** carry one pet container per flight up to a maximum of 32kgs per animal, including container weight.
- Loganair **can only** carry a maximum of 2 animals in one container (see notes 1)
- Loganair **can** carry PETs in all aircraft types
- DHC6 & BN2(Space available at time of booking and restricted to Island residents)
- EMB145 Aircraft G-SAJI/JG/JH cannot carry pets in the hold

Operating Flight crew **MUST** be advised of PET travel on all occasions

Loganair **cannot** carry certain breeds due to breathing difficulties; see the list below:

- All bulldogs
- Pugs
- Pekinese Cross Breeds

Cross breeds of Bulldogs, Pugs and Pekinese, including crossbreeds with other brachycephalic breeds, are **unacceptable**.

We may refuse travel for your pet:

- Container must be large enough for the pet to stand up, turn around and lie down naturally. But not so big that it could cause injury to the animal with excess movement. It should be as comfortable as possible
- Container must be strong enough to protect the pet during transport, be secure enough to contain it and have sufficient ventilation
- The door must be secured in such a manner that it will not open accidentally, or your pet cannot open it during handling and transport
- Your pet's nose and paws should not be able to fit through any ventilation opening or door mesh
- The container should be constructed out of rigid plastic, wood, or a material of comparable strength. Fibreboard or wire mesh containers are not suitable for air transportation
- Most pet stores and kennels sell and/or hire containers, or they can be made to measure to meet IATA specifications
- No animals are permitted to travel within the passenger cabin in shipping kennels or otherwise (excluding Seeing Eye dogs)
- Weaned puppies younger than Twelve weeks must not be shipped due to possible dehydration effects in air transportation. Kittens, likewise, younger than 12 weeks must not be shipped

Notes:

1. A maximum of two adult animals of comparable size up to 10kg each, which are used to cohabitation, may be shipped in the same container up to a maximum weight of 32kgs including the weight of the container.
2. Animals up to six months old from the same litter, up to a maximum of two, may be shipped in the same container/compartment.
3. Only rigid containers are acceptable for travel; collapsible or soft cages are not acceptable for carriage in the hold. This should be checked with the passenger at the airport. The carriage can be refused if the container is unacceptable; please get in touch with ground services if concerns are raised.

TYPICAL RIGID PLASTIC DOG CONTAINER

Door hinges and locking pins must extend beyond the horizontal extrusions above and below the door opening by at least 1.6 cm ($\frac{5}{8}$ in)

- The container should be no bigger than **L90cm x W70cm x H75cm**
- The weight of the animal, including the box, should be advised at the time of booking (**Max weight 32kgs for both animals and container**)
- Passengers should be advised to allow 1hr30mins for the check-in and Pet process at the airport (where applicable due to airport opening times)
- All carriage of Pets travelling with the owner must be booked via Loganair reservations on **0344 800 2855**

Cost per container per sector from 1st April 2018 - £50.00
